

Features

Linde hydrostatic drive system

- Responsive, smooth, precise
- No mechanical wear components
- Robust, well proven in severe applications
- Low maintenance cost
- Long service life

Linde twin pedal travel control

- Instantaneous directional changes
- Precise control without shift shock
- Lower fatigue, improved productivity

Linde operator compartment

- Unmatched visibility
- Advanced ergonomic design
- Spacious
- Floating, shock mounted cab

Power plant

- Industrial Deutz Diesel engine complying to EPA Tier 4 requirements
- High torque, 348 lbf at 1600 rpm
- Electronic engine management
- Low emissions
- Fuel tank 21.0 gallons

Linde torsion distribution system

- Reduction of mast distortion up to 30%
- High residual capacity
- Overhead tilt cylinders

Linde Material Handling

Linde Material Handling North America Corporation
2450 West 5th North Street, Summerville, SC 29483
Phone: (843) 875.8000 • Truck Sales Fax: (843) 875.8471
E-mail: trucksales@lmh-na.com • Web Site: www.lmh-na.com

Linde clear-view mast

- Superior visibility
- Full capacity to 256" /268"
- Unmatched residual capacity with attachments

ANSI Standard truck meets all applicable mandatory requirements of ANSI/TSDF B56.1 standards for powered industrial trucks.
NOTE: Performance data may vary due to motor and system efficiency tolerances. The performance depicted represents nominal values obtained under typical operating conditions. Metric dimensions are in millimeters unless otherwise specified.
All metric dimensions are not direct equivalents due to rounding data. The descriptions and specifications included on this data sheet were in effect at the time of printing. Linde Material Handling North America Corporation reserves the right to make improvements and changes in specification or design without notice and without incurring obligation. Please check with your authorized Linde dealer for information on possible updates or revisions.

Diesel Forklift Trucks
13,000 to 17,500 lbs. Capacity
H60D, H70D, H80D, H80D-900, and H80D-1100
SERIES 396-02

Linde Material Handling

Reliability & Durability

50 years of experience with hydrostatic drive systems are combined with a robust, industrial diesel engine, the result, utmost reliability. This combination has consistently proven dependable in even the most challenging environments. This machine is effective and cost efficient without equal.

Economic

The original Linde hydrostatic system operates without mechanical transmission, torque converter, clutch, differential axle and conventional brakes. The net effect: low operating cost and increased productivity, a significant advantage especially in high cycle applications.

Safety

With full loads weighing as much as 17500 lbs. at 43" load center and full capacity up to 256" of lift height—safety is priority number one. The Linde Torsion Support System and mast design are the fundamental reasons for stability when handling wide, swinging loads generating high dynamic forces.

Performance

These trucks are engineered to take care of the really tough jobs. Advanced engine design and Linde hydrostatic drive technology enable the operator to accelerate and decelerate smoothly and without shift-shock, at slow pace or at full speed. Without effort, using the original Linde Load Control, the driver manipulates the load efficiently and quickly in any condition. Precise control of all movements is the key to high performance.

Comfort

Man and machine are perfectly matched on these high capacity forklifts. Designed to the most advanced ergonomic standards, the generously sized driver's cab provides a comfortable work environment. Fully adjustable seat and armrest contribute to minimizing stress and fatigue. Fingertip hydraulic controls, designed into the armrest, add further to the fatigue free operation.

Standard and optional equipment

Capacity and mast information*

Standard equipment:

Direct injection, turbo charged, 4.0 liter (246 cubic inches) diesel engine with intercooler, providing 114 hp
Twin pedal drive system
SE tires
Armrest with Linde Load Control
Hydraulic suspension, high comfort driver seat
Tilttable steering wheel
Hydrostatic power steering
Torsion distribution system
High performance filter system
Comprehensive display

Options:

Single pedal travel control
Tire options, Radial, twin, etc..
Special carriages
Integrated sideshifters and fork positioners
Complete cabs
Heating and cooling
Seat options
Lighting options
Various custom options and packages

Other options available on request
