

Rider Floor Scrubbers

The Efficient, Rugged and Versatile Large Area Scrubber

The SC6500™ rider floor scrubber combines effortless control and efficient, sustainable scrubbing in one powerful, compact package — ideal for demanding applications including supermarkets, warehouses, manufacturing plants, airports, universities and more.

Benefits of SC6500 Rider Floor Scrubbers

The SC6500 combines aggressive cleaning performance with the tightest turning radius in its class. Delivering efficient single-pass cleaning, heavy-duty, durable construction and the versatility to adapt to any job, including the optional EcoFlex™ System to help you reduce costs by saving water and detergent.

- Choose the right floor scrubber for your application — 3 scrubbing widths (40", 45", or 48") in either cylindrical or disc scrubber configurations
- Maximize scrubbing time with the large 70 gal. solution and recovery tanks
- Clean floors in a single pass thanks to the high-power scrub deck powered by dual 1.5 hp motors
- Monitor performance and improve productivity with the optional TrackClean™ centralized fleet management system
- Invest in a floor scrubber that's built to last — industrial bumper, frame-mounted deck protection and high-strength tubular, steel construction
- Reduce total cost of ownership and ensure smooth, quiet, precise control with the maintenance-free AC brushless propulsion system
- Effectively edge clean with the offset scrub deck and standard side broom on cylindrical models
